

Training Yard Panel

Bulletin 817: TTU/PT Layout

We recognize that training yards come in all different shapes and sizes, and our Training Yard Systems are designed to be easily incorporated into all yards. We work closely with each unique location to ensure ideal placement of their Timpson Training Unit.

The footprint of the Timpson Training Unit – Transmission is larger than our other systems because of the accompanying PT's required. Suggested Layout Bulletins:

- Bulletin 817A – 34kV Pad Drawing
- Bulletin 817B – 69kV Pad Drawing
- Bulletin 817C – 138kV Pad Drawing

- Bulletin 818A – 34kV Pole Drawing
- Bulletin 818B – 69kV Pole Drawing
- Bulletin 818C – 138kV Pole Drawing
